

Riverside Robotics Club

The Riverside Robotics Club is a student club at Riverside High School.

Elena Ruiz is the science teacher at Riverside High School. She advises the Riverside Robotics Club.

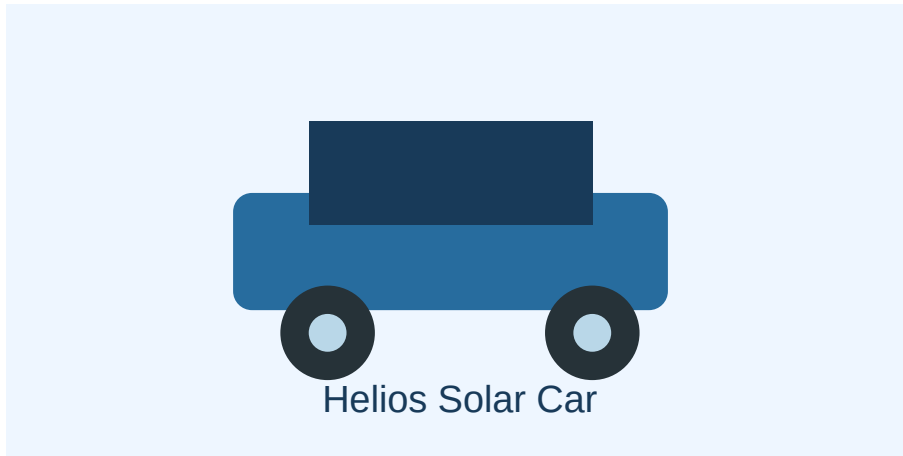

Figure 1. The Helios Solar Car.

The Helios project

The club built the Helios Solar Car for the Brookdale Science Fair. Noah Kim leads the Helios project.

The team

Noah Kim is a student at Riverside High School. Priya Shah is also a student at Riverside High School.

- Noah Kim builds the car body.
- Priya Shah connects the battery.
- Elena Ruiz checks the safety plan.

Testing and equipment

- 1 The team chooses a design.
- 2 The team builds the solar car.
- 3 The team tests the solar car.

Elena Ruiz says that the team should test the car before the science fair.

Item	Owner	Use
Solar panel	Riverside Robotics Club	Collects sunlight
Battery	Riverside Robotics Club	Stores energy
Small motor	Noah Kim	Moves the car

Test day

The team tests the Helios Solar Car in the science laboratory. The science laboratory is inside Riverside High School.

Project record

Project: Helios Solar Car
Team leader: Noah Kim
Teacher: Elena Ruiz
Location: science laboratory

Note: The laboratory has tables, tools, and a charging station.
